TAP FEE	\$500.00	\$ _____
FACILITY IMPROVEMENT FEE	00	\$ _____
TOTAL	\$500.00	\$ _____

Payment Received Date: _____ by: _____

Payment Method: Check #: _____

Charges are further identified in the District's Rules and Regulations and Appendix A thereto. The Permit Charge, Tap Fee, and Facilities Improvement Fee do not include the cost of construction of water and sewer service lines. Property owners, at their sole cost and expense, are responsible for constructing, in accordance with the Construction Standards, the entirety of the water and sewer service lines for their property. The District will supply the water meter, PRV, and check valve to the property owner for the property owner to install. Alternatively, if the connection will be made directly into the District's main lines, the property owner may request for the District to perform service line installation for a cost of \$6,500 or the actual cost incurred by the District, whichever is greater; whether to grant such request must be made at a meeting of the District's board of directors and shall be at the sole discretion of the District's board of directors. The property owner is responsible for ensuring that the calculations, plans, specifications, construction, and record drawings are in compliance with the Construction Standards, Rules and Regulations, and regulations of Clear Creek County or other applicable jurisdiction. The District shall be notified of all excavation and installation to allow for inspection approval in accordance with the Construction Standards. In the event of a discrepancy between this Application/Permit and the District's Rules and Regulations and Construction Standards, the District's Rules and Regulations and Construction Standards shall prevail.

The District shall begin charging its Service Fees upon connection of the second building or within one year of the date of this Application, whichever occurs first. Connections must be made within 2 years of the date this Application is signed by the District. Connections are defined as any service lines being connected to the structure to be served. Failure to install connections by the two-year deadline shall void this Permit and all fees paid shall be forfeited to the District.

Service Availability: Water service is limited by the availability of water. The District does not guarantee an uninterrupted supply of water to the Applicant's premises. Failure of equipment, pipelines, or other utility components may unavoidably disrupt service from time to time.

Wastewater: The District will accept only normal domestic-strength wastewater. Applicant consents to the District's Rules & Regulations as a condition of use of the wastewater system. Applicant also consents that any discharge of industrial wastewater by the user shall subject such user to consequential damages for violations of the District's Rules & Regulations, including, but not limited to, any amounts the District may be required to pay for violation of the conditions of the District's CDPS Permit where the discharge of the user caused or contributed to such violation.

Engineering Assessment: *To be filled out by District's Operator.*

Building Elevation: _____	Pressure Zone: _____
Water Main Size: _____	Mainline Pressure: _____
Sewer Main Size: _____	Building Pressure: _____
Mains adjacent to property: <input type="checkbox"/> Yes <input type="checkbox"/> No	Booster pumps required: <input type="checkbox"/> Yes <input type="checkbox"/> No
Comments: _____	
Engineer/Operator: _____	Date: _____

Final Inspection: The District's Operator must inspect and approve the construction quality of all service lines before Applicant will be allowed any water usage. Meter and outside satellite read out must all be in place for final inspection.

When signed by District, this Application constitutes a Permit to receive service from the St. Mary's Glacier Water and Sanitation District subject to the Rules and Regulations of the District. This Permit may be revoked for failure to comply with the terms of the District's Rules and Regulations or this Application.
